

Live Training

nJAMS User

The Integration Matters training approach means that we tailor learning to suit the specific needs of your business and organization. Our live trainings and workshops provide an efficient way to deliver in-depth knowledge to specific roles within your IT team.

nJAMS User – Getting Started

nJAMS Getting Started has been developed for new users who are looking for practical, hands-on experience to help them hit the ground running with nJAMS. Attendees learn how to navigate nJAMS efficiently, personalize dashboards, create reports, manage alerts and how to search for processes and incidents.

The training provides a detailed explanation of how nJAMS is best used in your specific environment. It is a quick way to get started and meet your business needs. Through hands-on training, different examples and scenarios, attendees will learn how to leverage nJAMS' powerful interface to identify issues and solve problems.

Attendees will be able to start quickly working with nJAMS and benefit from increased visibility of each and every step of automated enterprise processes.

Topics Covered

- Get started with nJAMS
- The nJAMS graphical user interface
- Basic and advanced search capabilities
- How to configure extracts in nJAMS
- How to trace messages end to end
- How to create a report in nJAMS based on existing templates
- How to configure monitoring rules
