

**INTEGRATION
MATTERS**

■ FUTURE ARCHITECTS, PLEASE GET IN TOUCH!

We're looking for top experts. Top experts who are ready to develop the highest level of end-to-end architectures for our renowned global customers. In a team with business and technology experts, enterprise architects and end-users, you create customized solutions. Afterwards, you implement these solutions on-site at our international clients' locations.

Senior Integration Architect

You define the structure of the system as well as interfaces and determine technology components. You minimize technical risks and ensure timely deployment. In doing so, you work with the newest technologies and advise our customers on how they can reach their business goals with our solutions.

We value and support your personal marketing aims – whether that is active participation in specialist conferences, conducting workshops, applying for awards or publish articles or blogs.

Flat hierarchies and short decision-making processes are a part of our owner-managed company with around 30 employees and an excellent reputation in the industry.

YOUR PROFESSIONAL REQUIREMENTS:

- _ You have many years of experience with the development of architecture solutions for enterprise systems based on leading integration platforms such as Mulesoft, TIBCO, Oracle, IBM, Software AG or Talend.
- _ You have extensive knowledge of system design and the implementation of highly available, scalable, distributed system architectures.
- _ Your experience with RDBMS and NoSQL databases is well-founded.
- _ You are also adept in dealing with virtualization and PaaS systems.

YOUR PERSONAL REQUIREMENTS:

- _ You have worked as an Integration Architect for at least three years.
- _ You have five years of experience as a software developer.
- _ You have a strong analytical knowledge of problem solving.
- _ Your personal, methodological and linguistic skills are excellent. You can communicate with stakeholders on all levels.
- _ You speak German or Dutch and English fluently.
- _ You are ready to travel to customer projects.

Are you interested? Then we should get to know each other!

Just send your application to Sandra Spauke, info@integrationmatters.com.

WHO WE ARE

Integration Matters is the brand name of the IT consulting firm Faiz & Siegel GmbH and the software company Faiz & Siegel Software GmbH.

We help businesses achieve their strategic goals – with software tools and know-how that develop, implement and monitor critical business processes.

More than 300 customers around the world rely on our products and services. These include market leaders from the energy, telecommunication, banking, insurance, retail, transport and logistics sectors.
